## Third Panui – Call for Registrations

*Supporting whānau impacted by loss, grief and suicide*

The kaupapa of our conference concerns the mental and spiritual wellbeing of our people. Grief and loss from suicide has received extensive media coverage and has become of enormous concern to whānau, and our communities. Ngā Kūaha Tūmanako is about opening the door to a conversation and engagement with each other.

We are targeting all areas of the community and helping agencies who are committed to supporting and helping those in a state of mental and emotional need. Our desire is to provide a safe environment for whānau, rangatahi, community and helping professionals, counsellors, social service agency workers to kōrero and connect with each other. We hope people will discover the power of community to transform lives.
